

not be found in the most up to date district register of electors provided to me by the Westchester County Board of Elections on September 14, 2018. Additionally, 13 entries had printed names whereas signatures are required, 6 entries were duplicates of previous entries, 4 entries were by non-residents of Pelham Manor, 37 entry signatures were completely unlike the signatures in the district register of electors and 1 entry was completely unrecognizable and could not be verified at all. That left 370 entries that could be located in the district register of electors and whose signatures I considered valid.

Sincerely,

John T. Pierpont
Village Clerk
